

## Firestick Directions

### CONNECT TO YOUR WIFI NETWORK FIRST!!

Directions on how to get to kodi for fire stick;  
Create or Log In to existing amazon account

- Scroll down to apps
- select kodi
- the different apps are under each main category, to see all click "addon list" under category header.

\*\*\*Some streams may not load but just try others, one of them will load!

**I occasionally do updates , so to keep current go to [pcstorian.com](http://pcstorian.com) and sign up for mailing list**

### Troubleshooting

If kodi ever freezes, here are the steps to restart it easily:

- press on the home button to get then go to settings –applications-manage applications
- click "kodi" then press force stop then .
- , then click on launch, and kodi will restart back in normal state

## To Use Xfinity Stream App

### CONNECT TO YOUR WIFI NETWORK FIRST: MUST HAVE A XFINTY LOGIN TO WORK !!

Open Xfinity Stream and Signin

- If it ask which program to use to login choose puffin tv
  - Double Tap Play/Pause button for virtual Mouse
  - Select "I agree"
- \*\*\*This is hacked to work so keep in mind navigation is a little funky\*\*\*  
**I occasionally do updates , so to keep current go to [pcstorian.com](http://pcstorian.com) and sign up for mailing list**

### Troubleshooting

If Xfinity ever freezes, here are the steps to restart it easily:

- press on the home button to get then go to settings –applications-manage applications
- click "xfinity stream" then press force stop then .
- , then click on launch, and Xfinity will restart back in normal state
